Panther Security Service Inc. – Administrative / HR Manager | August 2024 – November 2025 - Contract

Role Overview:

Led administrative and human resources functions to improve organizational efficiency and day-to-day operations. Managed recruitment, onboarding, employee relations, training, policy development, performance management, and general office administration.

Key Responsibilities:

Recruitment & Employee Relations:

- Developed and implemented recruitment strategies; conducted interviews and facilitated hiring.
- Onboarded new employees and ensured smooth integration into the organization.
- Served as point of contact for employee concerns, mediated conflicts, and fostered a positive workplace culture.

Training & Development:

- Identified training needs and organized development programs.
- Managed performance appraisal processes and supported career development and succession planning.

Policy & Compliance:

- Created, implemented, and updated HR policies and procedures in line with labor laws.
- Ensured workplace safety regulations were followed by conducting audits and risk assessments.

Compensation & Benefits:

- Administered employee compensation and benefits programs.
- Conducted salary surveys, managed pay structures, and addressed employee inquiries.

Administrative & Operational Management:

- Oversaw daily office operations, office supplies, equipment, and facilities.
- Maintained employee records and confidential information, and prepared HR reports.
- Assisted in HR budgeting and monitored related expenses.
- Served as a liaison between management and staff and organized internal events and meetings.

Quality Management & Audits:

- Identified and reported non-conformities in daily operations.
- Supported establishment of departmental procedures and process flows.
- Provided necessary evidence for internal and external audits; adhered to quality policies.

Security Operations Management:

- Oversaw daily security operations, personnel management, and resource allocation.
- Recruited, trained, and supervised security staff; conducted performance evaluations.
- Scheduled staff assignments, including District Managers for twelve-hour shifts, and ensured proper briefing on SOPs and job roles.
- Conducted risk assessments, security audits, and incident investigations.
- Built and maintained client relationships, conducted site visits, and addressed concerns.
- Developed, implemented, and reviewed security policies and procedures.
- Coordinated emergency response plans, drills, and training sessions.
- Ensured accurate record-keeping for arms, training logs, and operational reports.
- Disbursed funds, monitored company vehicle maintenance, and ensured operational compliance at all locations.

Technical Services Contractor | 2003 – Present

- Delivered computer and IT support services, including diagnostics, repairs, upgrades, and peripheral maintenance.
- Provided client training on IT solutions, networking fundamentals, and troubleshooting best practices.
- Installed and configured security and defense software and advised clients on effective solutions.
- Performed electrical installation, maintenance, and repair services for household appliances, including washing machines, dryers, vacuum cleaners, and microwave ovens.

Le Meridien Pegasus Hotel, Guyana – System Administrator (Contract) | 2003 – 2015

- Maintained and supported hybrid wired and wireless networks, along with desktops, laptops, thin clients, printers, fax machines, photocopiers, and PABX interfaces.
- Managed a Windows 2000 server environment that supported staff and administrative operations.
- Supported a guest Wi-Fi network with more than 75 Cisco 1200 access points, including Nomadic and Guest-Tek systems for reliable guest connectivity.
